HANDS OFF KING GEORGE HOSPITAL

To London Region NHS
Copy to Patricia Hewitt MP Health Secretary

We, the undersigned residents of Ilford South Constituency, are alarmed that proposals under consideration by the London Region NHS for the reorganisation of health services in this area would lead to serious reductions in hospital services in Ilford.

We feel that these proposals are based on unrealistic assumptions, take no account of the predicted rise in local population and would leave residents chronically short of the required levels of medical facilities.

We support Mike Gapes' campaign to call for an end to call for an end to the current reorganisation plans and for no reduction of facilities at King George Hospital.
